

Protecting the Drivers Who Deliver the Economy

THE INVISIBLE RISK:

Last Mile Delivery is the fastest-growing sector in transportation, and the most dangerous. Most logistics companies (DSPs) cover their Auto and General Liability but leave a massive gap: **Driver Injury**.

One on-the-job injury to an uninsured driver is often the 'tripwire' that triggers a contract termination from major logistics partners like Amazon or Lowe's. If a driver is injured and sues for medical costs, the state can reclassify your entire fleet as employees, leading to catastrophic back-taxes and penalties. Our Last Mile Program acts as a 'Compliance Shield,' ensuring every driver has primary coverage so your business—and your contract—remains secure

Contract Security: Satisfies independent contractor requirements for major logistics platforms

High-Limit Medical: Up to \$1,000,000 in accident medical coverage ensures injured drivers get top-tier care immediately without suing you

"Binding" Speed: Simplified enrollment allows you to bind policies in under 24 hours to get new drivers on the road fast

COVERAGE TIERS

Per Driver/Helper-Per Month

SELECT PLUS: **\$160**

Medical: **\$500,000**
Accidental Death: **\$500,000**
Disability: **\$500/wk**

SELECT ELITE: **\$180**

Medical: **\$1,000,000**
Accidental Death: **\$500,000**
Disability: **\$1,000/wk**

WHY DRIVERS NEED THIS:

\$0 Deductible on Medical
On-the-Job Accident Coverage.
Portable Protection Follows the Driver
